

Reusable Moisture Absorber

The Sakura Reusable Moisture Absorber is a convenient and effective solution for combating fogged up windscreens and moisture problems within your car. This product offers a quick and efficient solution, ensuring a hassle-free driving experience. Say goodbye to the inconvenience of foggy windows with the Sakura Reusable Moisture Absorber. With its microwave recharge feature, simply place the moisture absorber in the microwave and within minutes the product will be recharged.

- Keeps windscreen clear
- Never leaks
- Microwave to recharge

Resolves
moisture
issues

4 minutes
to recharge

Recharging Instructions:

STEP 1: When indicator is showing pink it means the moisture absorber needs to be recharged.

STEP 2: Place the moisture absorber on a clean microwave safe dish and microwave for 4 minutes. Caution this will be hot, leave to cool before handling.

STEP 3: The moisture absorber will now have a blue dot which means it is dry and ready to use.
