

EMERGENCY FOIL BLANKET (PACK OF 4)

NEW

The AA Emergency Foil Blanket is a vital tool for maintaining body warmth in critical situations. Designed to be compact and lightweight, this durable blanket unfolds to a generous size of 160cm by 210cm, providing ample coverage when you need it most. The reflective surface of the foil blanket works to retain natural body heat, making it an invaluable asset for emergencies, outdoor activities, or camping trips. By wrapping the blanket tight around you, you create a barrier against cold air, helping to prevent hypothermia and keep your body temperature stable until help arrives or conditions improve.

- Pack of 4
- 160cm x 210cm
- Retains body heat
