

13W SOLAR BATTERY CHARGER

NEW

The AA 13W Solar Battery Charger is an innovative solution for vehicle owners seeking to ensure their battery remains fully charged, even during periods of inactivity. Utilizing advanced solar technology, this charger effectively converts light energy from the sun into electricity, providing a sustainable power source that is both environmentally friendly and cost-effective. Designed for ease of use, the charger can be effortlessly mounted on the dashboard or windscreen of your vehicle, harnessing sunlight to maintain battery health without the need for complex installations or wiring.

- Suitable for car & caravan
- EOBD socket included
- Maintains the 12V vehicle battery whilst the vehicle is parked
- Includes clips for direct battery connection
