CTEK COMFORT INDICATOR PRODUCT DISPLAY

*Whilst stock lasts

POWER UP YOUR SALES WITH THE CTEK COMFORT INDICATOR DISPLAY!

Make an impact and boost customer engagement with the CTEK Comfort Indicator Product Display, the perfect way to showcase CTEK's innovative charging solutions. This interactive display lets customers see, touch, and understand the benefits of CTEK technology—helping you drive more sales effortlessly!

WHAT'S INCLUDED?

An eye-catching product display – Designed to draw attention and educate customers on CTEK's smart charging system.

A dummy charger – Perfect for hands-on demonstrations, so customers can experience the product before they buy.

A working example of the 56-629 Comfort Indicator – Show how easy it is to use and why CTEK is the top choice for battery maintenance.

15 FREE 56-629 Comfort Indicators! – A great way to add value, boost customer satisfaction, and increase your profit margins.

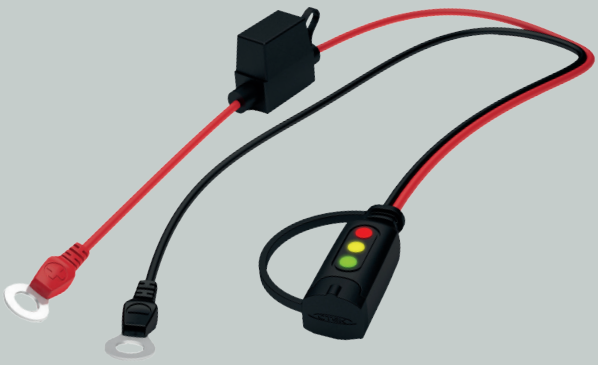

WHY YOU NEED THIS DISPLAY:

Attract more customers – A visible, interactive setup makes it easier to demonstrate the benefits of CTEK products.

Increase sales – Seeing is believing! When customers can interact with a product, they're more likely to buy.

Perfect for retail counters, and showrooms – A great tool for educating and converting potential buyers.

Added value with 15 free Comfort Indicators – More sales potential at no extra cost to you!

15x CTEK Comfort Indicator – Eyelet (M6) Direct Connector

The INDICATOR – Eyelet connector is ideal for charging and checking batteries that are difficult to get to or hidden. The 'traffic light' system shows your battery's charge status simply and clearly. Connect the eyelet terminals to the battery, check the status, then plug the connector into your CTEK charger if the battery needs charging. It comes with a 2-year warranty.

- Works with all 12V lead-acid batteries, and with CTEK chargers up to 10A
- **Eyelet connection:** provides a permanent and secure connection for hard-to-reach batteries
- **Durable:** designed and tested in Sweden, with hardwearing and flexible cables that are built to last
