

Digital Tyre Inflator

The Sakura Digital Tyre Inflator is a compact and portable solution for maintaining optimal tyre pressure with ease, ensuring safer and more efficient driving. Featuring a digital display with an automatic shut-off function, it allows you to pre-set your desired pressure in PSI, BAR, KPA, or KG/CM², providing precise inflation every time. The easy air hose attachment securely locks onto the tyre valve for a hassle-free experience, while the built-in LED light ensures visibility in low-light conditions, making it ideal for roadside emergencies.

Designed primarily for vehicle tyres, this multifunctional inflator also includes three adaptors, allowing you to inflate sports balls, air beds, and other inflatables with ease. Its compact design makes it easy to store in your car, ensuring it's always on hand when you need it. Reliable, efficient, and user-friendly, the Sakura Digital Tyre Inflator is an essential tool for every driver, helping to improve fuel efficiency, extend tyre lifespan, and enhance overall road safety.

- Easy-to-read digital screen
- LED light
- Fast and efficient inflation
