

DIGITAL DOUBLE CYLINDER FOOT PUMP

NEW

The AA Digital Double Cylinder Foot Pump is a powerful and reliable solution for quick and accurate inflation of car tyres, bike tyres, sports equipment, and inflatables. Its dual-cylinder design delivers increased air output, reducing the time and effort needed to reach your desired pressure. The integrated digital gauge provides clear and precise pressure readings up to 100 psi, helping you inflate with confidence and accuracy.

Built for everyday use, the pump features anti-slip rubber feet to keep it stable during operation, ensuring smooth and safe pumping on any surface. The 60cm reinforced hose offers excellent reach and flexibility, making it easy to access hard-to-reach valves. Compatible with both Presta and Schrader valves, it's suitable for a wide range of bikes and vehicles, while the three included adapters make it ideal for inflating bike tyres, sports equipment & more.

- Includes 3 adaptors
- Anti-slip rubber feet
- Presta and Schrader valve compatible
- 0 - 100 psi
- 60cm hose
